

## 'Garden Geezers'

In your groups work together to see what you can discover in your Kitchen Garden.

1. What do you notice has changed over the summer break in the garden? What has grown that wasn't there before? If this is your first time in the garden just write down some of the things you notice.
2. Find a smell in the garden that you like. Do you know this plant? Can you describe it in words? Can you draw it? Can you find the flower that smells like chocolate?
3. Have a look at the Companion Planting Chart. What companion plants are growing together in the Kitchen Garden?
4. What is your favourite plant in the garden and why?
5. Does your group have any ideas about what you would like to see growing in the garden this year?
