VICTORIAN PLEASURABLE FOOD EDUCATION PACKAGE

Victorian schools and early learning centres can now get all the ingredients they need to grow, harvest, prepare and share fresh, seasonal and *delicious* food with the heavily subsidised Victorian Pleasurable Food Education Package.

Victorian educators can plant the seeds of health, learning and wellbeing in their children and communities with the comprehensive professional development, educational resources and support available in this new kitchen garden package, which reinforces Victorian learning frameworks and school curriculum.

The Victorian Pleasurable Food Education Package is supported by the Victorian Department of Education and Training and is available to Victorian schools and early years learning centres from September 2016.

Kitchen Garden Classroom Membership

Connect to a vibrant online community of over 1000 schools and learning centres delivering pleasurable food education, browse a growing Resource Library of hundreds of downloadable resources, and enjoy access to our friendly Support Centre to answer any and all of your questions. The membership is valid for two years. (RRP \$175 joining fee, \$110 annual renewal)

Professional Development

Get your hands dirty at two kitchen garden professional development workshops designed to equip educators with the hands-on experience needed to confidently deliver kitchen and garden classes. One educator is eligible to attend two separate, one-day workshops. (RRP \$250 for members and \$400 for public per workshop)

Getting Started Guide

Take the first steps towards establishing your kitchen garden program with the practical and informative Getting Started Guide. The Guide is delivered as an illustrated print publication of over 160 pages, complemented by an interactive and flexible online course (\$50).

Kitchen Garden Program Seasonal Planner

Start your program with a practical and easy-to-use seasonal planner. This printed poster and supporting instructions makes it easy to plan what and when you will be growing in the garden, ready to prepare and share in the kitchen, and how to reinforce learning with kitchen garden activities. (RRP \$20)

Sector-specific Practical Learning Resource

Each educational sector, including early years learning, primary and secondary, will receive a comprehensive professional learning resource showing educators how to link the kitchen and garden with their specific learning framework or curriculum:

- *Seasonal Food & Gardening for the Early Years* is a practical illustrated guide for early years educators, with 42 activities and 28 recipes. (RRP \$50)
- *Kitchen Garden Syllabus for Primary (Years 3-6), Books 1 and 2* includes everything primary school educators need to plan and run a successful kitchen garden program. (RRP \$95 per book)
- A secondary school-specific pack is currently in development, in consultation with subject experts and educators. Including teacher and student resources, in print and online, the pack will be available Term 1 2017.

Reporting tool

Easily report on the activities of your kitchen, garden and links to learning with an interactive reporting tool. The Foundation is in the process of redeveloping our current online reporting tool to make it even easier to use and more aligned to the reporting requirements of your school or centre.
